

LS Series Task Light

LS Series lamps are ergonomically designed for ease-of-use and engineered to with-stand years of constant operation. The lamps feature a high-grade, flexible, anti-vibration gooseneck arm to accommodate small or hard-to-reach work areas. The LED element offers a significant increase in luminous intensity of a standard 20 watt halogen bulb, while providing close to 70% less energy consumption, cool-touch heat management and projected 25,000 hours of high-output lighting.

Applications:

- Visual Inspection
- OEM Applications
- Fine Assembly
- Industrial Manufacturing
- Office • Work Bench
- Electronics • Packaging
- Medical • Assembly

Model
LS710-27
